DEMAND MORE FROM YOUR INVESTMENT IN SAFETY APPAREL

YOUR CONFIDENCE TO SURPASS THE STANDARD

You invest in safety apparel to be safe, so we make sure you surpass the standards. Work with confidence knowing that OccuNomix uses only third party certification to the ANSI standards. Get more from our high visibility, which maintains top notch safety performance even after 25 washes.

YOUR COMFORT THROUGH THE WHOLE SHIFT

You look good in your uniform, and you know it. But our products aren't just making you look good. OccuNomix outfits you with ergonomically designed products engineered to work with the body in motion, taking functional and comfortable to the next level.

YOUR MATCH IN TOP QUALITY PERFORMANCE

OccuNomix knows it's all about what you're made of. We seek out and use fabrics and sewing methods to our exacting quality standards, making sure each garment is engineered to last the wear and tear of any work environment.

DEMAND MORE FROM YOUR
HIGH
VISIBILITY

All OccuNomix high visibility apparel is third party tested to meet full compliance with the standards set to keep you safe and seen on the job.

Your safety is our priority. We demand the best so you can be confident in the safety apparel you wear on any job.

HIGH-VISIBILITY T-SHIRTS

MADE TO KEEP UP

Demand lighter weight and wicking fabric in a color that survives the full shift in the sun. With OccuNomix products you get all day sun protection, as well as background material and tape that will survive the washings needed to keep your apparel safe, clean and shining brightly for the traffic.

GRS certified-What does this mean?

- The Global Recycled Standard verifies recycled content in products and traceability
- Ethical and responsible production
- Chemical restrictions for any toxic inputs
- Environmentally friendly practices in production

Why should you care?

By purchasing more environmentally friendly products, consumers contribute to reducing pollution and the harmful impact production has on human health and our planet. Confidence in knowing you are wearing a garment made from environmentally friendly material from sustainable production processes and socially responsible working conditions.

GARMENT TEMPERATURE RANGE

MORE ACTIVE

LESS ACTIVE

TEMPERATURE RANGE IN FAHRENHEIT (F) 32° F = FREEZING POINT

The thermometer shown represents the ANSI tested, ASTM F2732, temperature range for garments.

Whether you are standing out in the elements in between tasks or hard at work, we have the right gear for your winter.

HIGH-VISIBILITY RAINWEAR

COVER FROM EXTREME RAIN

It is simple. You need rainwear to stay seen right through any type of rain as well as last the grueling world of work. We design our rainwear with laminated membranes and sealed seams to keep you dry to ASTM E96 standards while building in durability and superior performance with the fabrics and construction methods we use.

EXTREME RAIN GEAR

Protection against the elements & the environment. The SP-BRJ and SP-BRP are compliant with Viral Penetration ASTM Method F1671 as well as Water Vapor Transmission ASTM E96 compliant

WATER VAPOR TRANSMISSION

ASTM E96 are a series of tests to obtain reliable values of water vapor transfer through permeable and semi-permeable materials.

VIRAL PENETRATION

ASTM F1671 is a test method used to measure resistance of materials used in protective clothing to penetration by blood-borne pathogens such as Hepatitis B and C as well as Human Immunodeficiency Viruses.

SP-BRJ

- 300 Denier Polyester heavy duty, waterproof Oxford with laminated membrane & sealed seams
- 2" Reflective Tape
- Mic tab
- Fleece lined collar

TYPE P CLASS 2

Requires less background material which allows easy access to duty belt equipment.

Type P is a public safety classification which includes Emergency & Incident Responders and Law Enforcement.

HIGH-VISIBILITY SELF-EXTINGUISHING

Self-Extinguishing vests are made from treated Polyester to self-extinguish **as defined by ASTM D6413**. This type of garment should never be used where an arc flash or flash fire hazard is present. Typical applications are asphalt paving, steel erection, bridge building and other applications involving Flame Resistant hazards that result from errant sparks rather than open circuit electricity or a potentially explosive atmosphere.

TSE-IMBZ

- Polyester Mesh treated to self extinguish
- 2" Flame Resistant Reflective Tape
- Quick Release Zipper
- 5 PT Break-Away
- ASTM D6413 Compliant up to 25 washes
- Pockets: 1 Left Chest, 1 Inner Lower
- 25 Washes
- Sizing: S-5X

TSE-IMBZX - CSA Z96 X-BACK

- Polyester Mesh treated to self extinguish
- 2" Flame Resistant Reflective Tape
- Quick Release Zipper
- 5 PT Break-Away
- CSA Z96-15 Compliant
- ASTM D6413 Compliant up to 25 washes
- Pockets: 1 Left Chest, 1 Inner Lower
- 25 Washes
- Sizing: S-5X

TSE-ISZ

- Polyester Tricot treated to self extinguish
- 2" Flame Resistant Reflective Tape
- Quick Release Zipper
- ASTM D6413 Compliant up to 25 washes
- Pockets: 1 Left Chest, 1 Inner Lower
- 25 Washes
- Sizing: S-5X

TSE-IMZ

- Polyester Mesh treated to self extinguish
- 2" Flame Resistant Reflective Tape
- Quick Release Zipper
- ASTM D6413 Compliant up to 25 washes
- Pockets: 1 Left Chest, 1 Inner Lower
- 25 Washes
- Sizing: S-5X

TSE-IMZ32T

- Polyester Mesh treated to self extinguish
- 2" Flame Resistant Reflective Tape with contrasting trim
- Quick Release Zipper
- 1 Mic Tab
- ASTM D6413 Compliant up to 25 washes
- Pockets: 1 Left chest expandable with flap, 1 Inner Lower, 1 Pen/Flashlight
- 25 Washes
- Sizing: S-5X

TSE-IM2TZ

- Polyester Mesh treated to self extinguish
- 2" Flame Resistant Reflective Tape with contrasting trim
- Quick Release Zipper
- ASTM D6413 Compliant up to 25 washes
- Pockets: 1 Left Chest & 1 Inner Lower
- 25 Washes
- Sizing: S-5X

COOLING PRODUCTS

MADE TO KEEP YOU COOL

Demand an expert that knows the best technology for the job. OccuNomix is the only company that has invented their own technology, manufactures their own cooling fabrics and materials, and the only one to offer the variety of long lasting cooling products to keep you cool and productive in any work environment.

YOUR GUIDE TO COOL

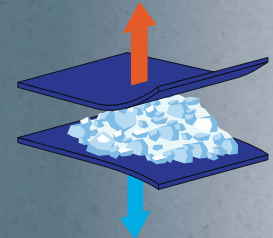

MiraCool® has been synonymous with the best of evaporative cooling for over 25 years – whether it is traditional polymer crystal, PVA or Hyperkewl™ Technologies – lightweight super-absorbent materials. Our perspiration management products offer thermoregulation through UPF sun protection, wicking and evaporative cooling.

MIRACOOOL® TECHNOLOGIES

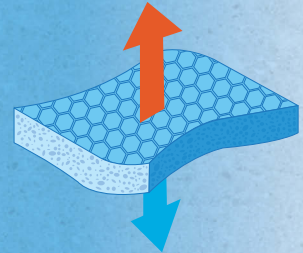

POLYMER CRYSTALS

- 25 years of proven cooling
- Crystal polymers plump with water
- Activates in 10-15 minutes
- Designed for quality, not slime
- Triple washed to avoid bleeding or staining

POLY VINYL ACETAL

- Super absorbent, durable, lightweight material
- Feels drier to touch
- Honeycomb texture on one side perfect for wiping down
- Activates in one minute
- Designed for 100% evaporative power (no fabric-cover-up)
- Anti-mold & UPF 50+

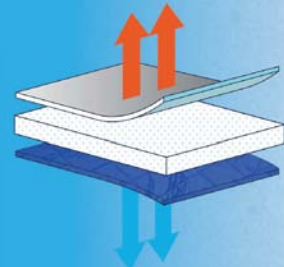

INHERENT COOLING

- Cooling without chemicals
- Wicks and cools - with or without water
- Twist when wet to activate
- 23% more cooling power than microfiber
- Keeps Skin up to 30% Cooler when wet
- Anti-mold & UPF 50+

HYPERKEWL™PLUS FABRIC

- Made from Hyperkewl™PLUS fabric that absorbs and slowly releases water
- Soak in water for 1-3 minutes to activate
- Reusable and easy to recharge
- Machine Washable

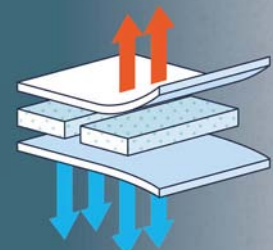

POWERED BY
HYPERKEWL™ PLUS

PHASE CHANGE COOLING

- Provides cooling of 58°F/14°C
- 2-3 hours of cooling per activation
- Reusable and easy to recharge
- Works in all temperatures & all humidity levels

MIRACOOL® ACCESSORIES

TD900

- 1 minute activation in cold water
- Anti-microbial treatment to prevent growth of odor causing bacteria
- Protection from dust & debris in the air, as well as the heat & sun
- UPF 50+ blocks 98% of UV rays
- Polyester/Spandex blend

A superior performing product to keep workers heads cooler under a work helmet with fabric proven to provide thermoregulation in hotter working environments

940

940-FR - FLAME RESISTANT

- Cotton
- Activates in 10-15 Minutes
- Also available in assorted 12 and 24 packs as well as 24 and 100 Bulk Packs (940-12, 940-24, & 940B-24)

Made with a tighter cotton weave for no slimy feel or leakage

BEST SELLER

WICKING & COOLING GAITER

TD800

- Protection from dust & debris in the air, as well as the heat & sun
- Offers UV Protection, moisture wicking & evaporative cooling
- Multifunctional use around the neck and head
- Anti-microbial treated
- UPF 50+ Protection

938

- Long lasting cooling effects for those who work in road & building construction, landscaping & heavy manufacturing
- Activates by water in 1 minute
- Wear multiple ways as a headband or around the neck
- Lower profile fits under a hard hat
- Logo ready

More inches of PVA for longer lasting and better cooling effect versus competing PVA headbands.

HARD HAT COOLING SHADES & PADS

We now offer our Hard Hat Cooling shades made with our brand new MiraCool® HyperKewl™PLUS technology, which uses unique chemistry to achieve rapid absorption, stable water storage and controlled evaporation.

HPK-968

- HyperKewl™PLUS fabric provides a uniform cooling throughout the garment
- Attaches to suspension with Hook and Loop Closure
- Cooling Duration for 5 to 10 hours
- Reusable heat stress solution that is easy to activate
- Individual or Bulk 24 Pack (HPK-968B)

POWERED BY
HYPERKEWL™ PLUS

HPK-969

- HyperKewl™PLUS fabric provides a uniform cooling throughout the garment
- Attaches to suspension with Hook and Loop Closure
- Attached shade to protect your head and neck from the sun
- Cooling Duration for 5 to 10 hours
- Reusable heat stress solution that is easy to activate

POWERED BY
HYPERKEWL™ PLUS

INSIDE THE HYPERKEWL™ PLUS TECHNOLOGY

Our unique HyperKewl™PLUS fabric absorbs, stores and releases water within the multi-layered structure. Water is "released" through evaporation, energy is consumed, and a chill effect is created.

HOW TO USE:

1. Soak in water for 1-2 minutes
2. Gently squeeze out excess water
3. Your HyperKewl™PLUS Item is ready to wear!

HARD HAT TERRY TOPPERS®

RELIABLE REVERSIBLE SWEAT STOPPERS

- The human body's sweat glands can pour out over a quart of sweat each hour, that is 2 gallons in an eight-hour day!

870

880 - ADDED COMFORT (Navy Only)

- Cotton Terry
- Easily attaches to Hard Hat Suspension with Snaps (870)
- Individual, 20 (870B20) or 100 (870B100)
- Easily attaches to hard hat suspension with fold over clips (880)
- Middle Layer foam for added comfort (880)
- Only available in 12 pack (880)

WARMING PRODUCTS

MADE TO KEEP YOU MOVING

Demand an expert that has the right tool for the job. Would you bring a hammer when you need a sledgehammer? No. So don't let the cold stop you dead in your tracks. OccuNomix is the only company to invent their own warming technology, designing products that address the highly varying weather conditions of the winter months. From slightly chilly to extreme cold temperatures OccuNomix knows how the cold weather can affect the working body, and we have what you need to remain warm safe and productive on the job.

BALACLAVAS

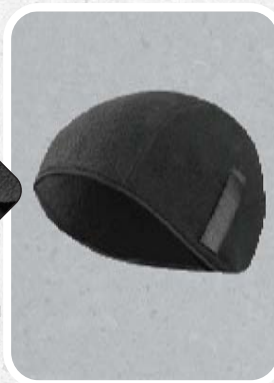

Our balaclavas can be worn 3 ways with hinged design and moisture management in cold conditions. It is made of fleece that stretches and gives for needs of any worker who is active.

BAL-2X2

- 8.3 oz Fleece
- Detachable with 3 snaps
- Patented Heat Touch Yarn in the hat which generates and store an additional 17°F of heat when tested against regular cotton and fleece fabrics
- Gaiter is the same Fleece as our SF240

INNOVATIVE DESIGN
DETACHABLE BY
3 SNAPS

SF240

- 7.1 oz Anti-Pilling Fleece
- Soft & Warm Brushed Micro Fleece with smooth outer shell
- Hinged for flexibility

ERGONOMIC GEAR

MADE TO KEEP YOU COMFORTABLE

Demand gear that was designed using the latest technologies available to keep you comfortable on the job. OccuNomix has been engineering ergonomic work gear for over 35 years starting with supports, head protection as well as gear bags.

Gear is where our knowledge of the body at work allows us to engineer products that help workers ergonomically, some even for temperature regulation, to get through the job. We build these features into our gear so you can work longer and stay comfortable.

KNEE PROTECTION

A CRADLE FOR YOUR KNEES.

Knees are one of the most important joints in the human body. So why are you beating them up? According to the American Journal of Epidemiology, investing in knee pads decreases the risk of knee injury by 56%. That's why we made a line of affordable knee pad solutions, with Cradle Technology™, contoured to fit the knee.

121 - BLACK HARD PE CAP 122 - CLEAR PVC CAP

- Gel Injected EVA Foam Padding is ideal for hard surfaces
- Neoprene Split Strap keeps knee pads in place comfortably

- Insect Net
- Drawstring with stoppers on each end
- 17" W X 17" L

V350 - CHIN STRAP

- Elastic
- Compatible with V200 and VF200

FLAME RESISTANT

STANDARDS MADE SIMPLE

ANSI/ISEA 107 Standard

Since 1999, the standard has been recognized by federal, state and local authorities as well as private industry and provides performance criteria for materials used, specifies minimum areas and recommends placement of the materials. The standard's performance requirements focus on color and brightness of garments relative to the work environment and the combined use of fluorescent and retroreflective materials to make a person conspicuous in all light conditions, day and night. ANSI/ISEA 107 includes criteria for flame resistance (FR) as an optional feature of high-visibility personal protective equipment. High-visibility apparel marked as FR must be certified as complying with one of the FR tests cited in the standard.

ASTM F1506 and NFPA 70E Standards

Garments that meet these standards are ideal for workers exposed to momentary electrical arc and related thermal hazards. Applications: Utility workers, Welders, First responders, Railroad workers, Oil & Gas workers

NFPA 2112 Standard

Protection against flash fire. Garments that meet this standard are made from UL approved components. The garment itself must be UL approved - if not the garment is not NFPA compliant! Applications: Electrical, Utility and Oil & Gas to name a few.

ASTM F1891 Standard

Electrical Arc specific to FR rainwear

ASTM F2733 Standard

Protection against Flame Hazards (i.e. flash fire) specific to FR rainwear

MADE TO KEEP YOU SAFE

Demand more than the standard. OccuNomix FR apparel is designed to be worked in, providing color fastness and durability. Their FR goes through arc and flame resistance testing, and with third party certification you know you're outfitted with the best keeping you safe on the job.

FLAME RESISTANT BARKA™ JACKET

DUAL CERTIFIED FR (CAT4) ANSI TYPE R CLASS 3

FR-JDWDBK

- Our unique Barka™ style: parka design in a bomber-like length
- Outer Shell: 17 oz Flame Resistant Cotton/Polyester Water Repellent Duck Weave

- Flame Resistant Thread
- Flame Resistant Binding
- Classified by UL to NFPA 2112
- Pockets: 1 Outer Lower Right
- 25 Washes
- Sizing: S-5X

DUAL CERTIFIED FLAME RESISTANT

DUAL CERTIFIED GARMENT?

Garments are certified to:

- **ASTM F1506** – arc flash protection
- **NFPA 2112** – flash fire protection
- **OCX™ Flame Resistant garments** are certified by UL to **NFPA 2112**.

That means UL has verified each garment component, the factory and the garment as a whole all comply with the safety standard for flash fire. Look for the label inside the garment with the UL symbol

FR-VM1312

- 6.5 oz Solid Tencel/Modacrylic/Aramid

MEASURE YOUR BODY FOR A PROPER FIT

Chest Size: Taken at the fullest point of your chest. Measure just under your arms and across shoulder blades holding the tape firm and level.

Waist: Measure around your natural waistline, keeping the tape snug, but comfortably loose.

Inseam: Measure from the base of your crotch to the top of your shoe. For a more accurate measurement have someone take this measurement. You can also measure a similar pant that fits you well. Lay the pant flat with the front and back creased smooth. Measure along the inseam from the crotch to the bottom of the leg hem.
